

AV System Installation - Plan View:

General view of Chancel indicating position of screen when lowered and of top pair of speakers. Screen is fully retractable behind chancel arch. Projector is hidden behind beam. (Screen and speakers not to scale)

Suggested Uses for Proposed AV System:

Visualiser (like an OHP but uses a camera):

Projection from book/piece of paper of: (a) **words** (hymns, scripture, meditations, notices etc) (b) **pictures** (illustrations and prints of paintings, drawings etc produced by Seekers, photographs, diagrams, plans e.g. for PCC discussions).

DVD/CD Player:

For playing **CD music** at Parish Praise, Funerals, Weddings, Special services etc

For showing **photo slide shows** on CD e.g. of a recent church event, of a link parish abroad etc

For playing DVDs:

- **Whole films** e.g. Environment group could show "An Inconvenient Truth", DVDs of famous Christians e.g. George Muller, or history of Christian organisations e.g. MU... or even "Flicks in the Sticks"

- **Excerpt** from a DVD to illustrate a point in Parish Praise etc.

- DVD of **church event**

Lap Top PC:

PowerPoint presentations by (a) visiting speakers e.g. Richard Lewis "Wells Cathedral" (b) to PCC (c) for Bible teaching etc. Simpler presentation software e.g. 'MediaShout' may be worth considering for easy use.

Video camera:

Playback of church events, youth group survey **interviews** e.g. 'Enigma' to use as part of a service.

Live feed to screen of any activity at front of church

Microphone/instrument input:

Microphone (**singing performance** quality) – services, weddings, concerts etc

Simple **miking of choir** to gain projection from chancel to nave.

Instruments e.g. 'clavinova' keyboard - including playback of midi-file hymns/worship songs **pre-recorded tracks**.
